Programação Web 1

Princípios de Desenvolvimento Web

Objetivos de Aprendizagem

- Conhecer princípios básicos de layout e composição para aplicação no projeto de páginas web
-

Agenda

- Planejamento
- O que é um "bom" *design* ?
- *Layouts* típicos
- Exercícios

Planejamento

“ O planejamento visual para a criação de um *site* possui três etapas básicas: Descoberta, Exploração e Implementação. ”

Descoberta

- Entender o que o cliente faz
- Qual seu público?
- Formal ou informal?
- Meios de acesso ao site? Qual a frequência

Exploração

- Seções que deve possuir
- Cores que pode utilizar
- Esboços de opções de layout
- Funcionalidades que devem existir
- Opções de ferramentas e tecnologias

Implementação

- Implementação de opções de layout para comparação
- Definição de ferramentas e tecnologias

O que é um "bom" design?

Dilemas

- Usabilidade, Funcionalidade e Efetividade
- Beleza, Apelo Visual e Expressão Artística

> *The most important point to keep in mind is that design is about communication. If you create a website that works and presents information well, but looks ugly or fails to fit with the client's brand, no one will want to use it. Similarly, if you make a beautiful website that is hard to use or inaccessible, people will leave.*

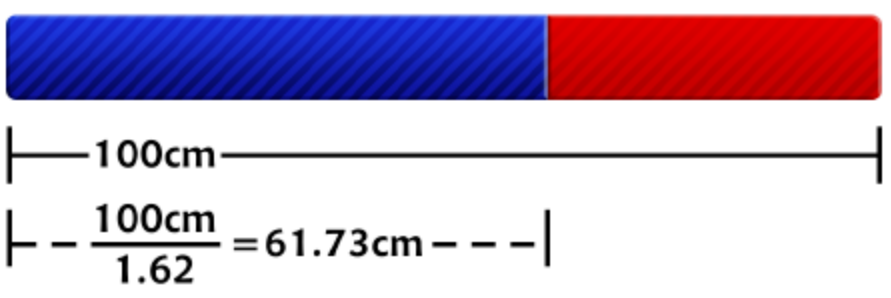
FIGMA

Figma para WD

Golden Ratio

- **Proporção divina**
- Pitágoras observou um padrão matemático que ocorre na natureza
- Em *Design* Gráfico as composições são divididas obedecendo a proporção divina tornando-as agradáveis aos olhos



Regra dos Terços

- *Rule of thirds*
- Divide-se a composição (site) em 3 partes verticalmente e horizontalmente
- Ajuda a aplicar a proporção divina

Grid

- *Wireframe*
- Essencial para *Design* Gráfico
- Vai além da questão do alinhamento dos elementos
- Relacionado principalmente a proporção

960 Grid System

- *Framework* CSS
- Resoluções típicas de 1024 pixels
- 960 pixels se adequa em 1024 pixels com mais flexibilidade
  - Divisível por 3, 4, 5, 6, 8, 10, 12, 15 e 16
  - Layouts com 12, 16 e 24 colunas
- Base para outros Frameworks
  - Foundation (https://get.foundation/)
  - Bootstrap (https://getbootstrap.com/)
  - Tailwind (https://tailwindcss.com/)

Layouts Típicos

Designs Típicos

- *Left-column navigation*
- *Right-column navigation*
- *Three-column navigation*

Left-column navigation

- Caracteriza-se por uma coluna esquerda estreita e direita ampla
- Design bastante utilizado
- Adequado para muitos projetos
